

GS5

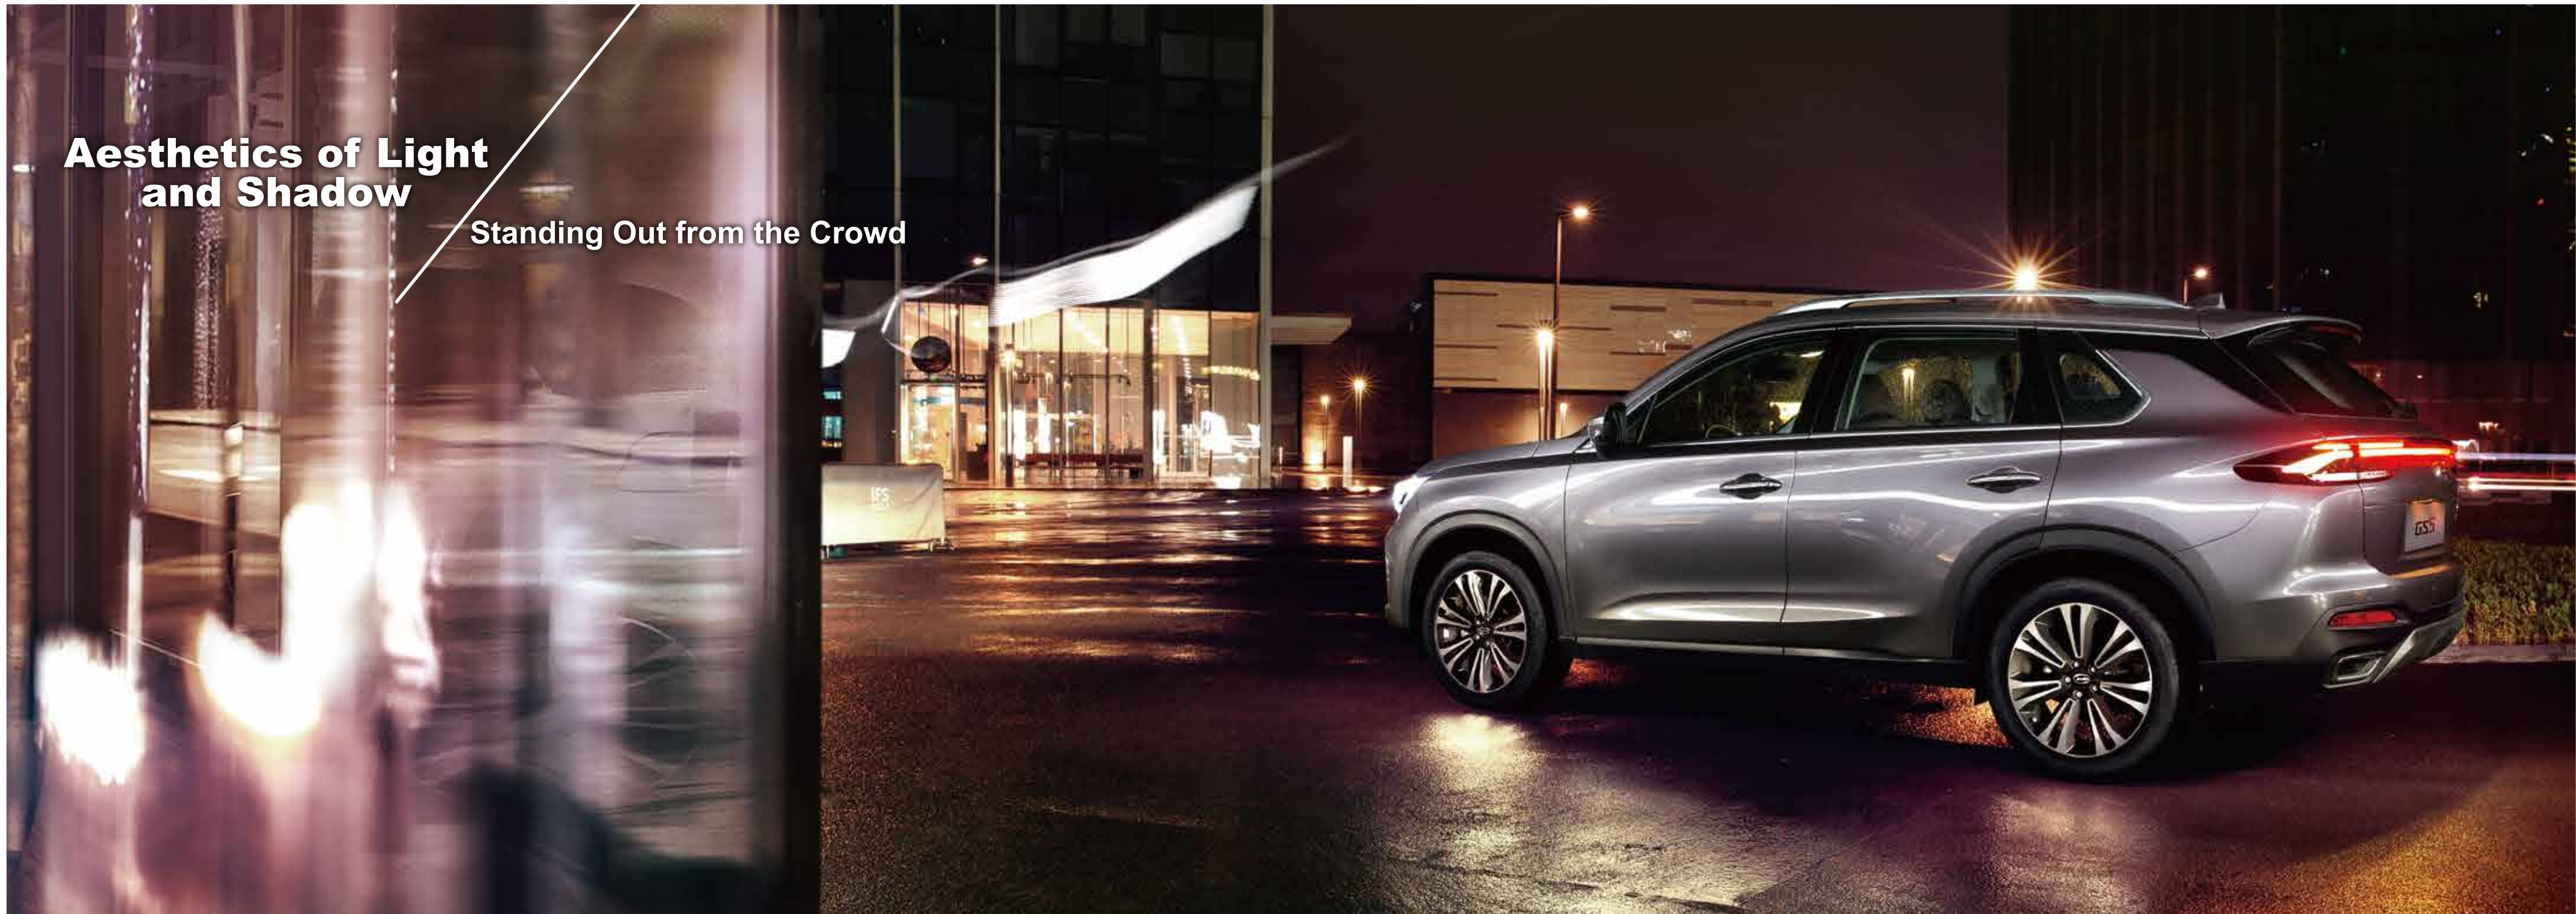

GS5

Being a MVP, Grand Slam winner ,Top Scorer and Championship-ring-owner,
what else do you need,
when you already have a couple of good wins under your belt?
Built to stand out and lead the aggressive with confidence and charisma.
Built to brave forward with remarkable enthusiasm.
Built to stay in control when facing new challenges.
Built to lead in all situations, making driving all the more enjoyable.
Built to ensure your beloved ones the most comprehensive protection.
GAC MOTOR GS5 is a pioneering SUV for the new age. It combines powerful
road performance with comfortable interiors to provide you the ultimate driving
experience.

Aesthetics of Light and Shadow

Standing Out from the Crowd

Light-and-Shadow Sculpting 3.0 **Reinventing the GAC MOTOR Design**

The front face imposes an impressive and elegant visual impact. The design accentuates the beauty and strength of its own form.

A Powerful Presence

Dazzling Matrix LED Headlights

The bright beams of light cut through the darkness of the night and illuminate the road ahead.

Stylish Rearview Mirror Turn Signals

A stylish boomerang curve turn signal adorns each of the side-view mirrors.

Hooked Whale Fin D-Pillar Design

The exquisitely curved corners show uncomparable strength. Every detail shows an unparalleled design.

Eagle Wing 3.0 Flying Dynamics Grille

The grille design was inspired by the expanded wings of an eagle. The simple but powerful lines capture the movements of flight and symbolize confidence in the face of the unknown.

LED Taillights

Like the sun breaking through the clouds, the 190 LED lights provide high-quality illumination.

Powerful Engine

Driving Forward with Passion

Six Key Breakthroughs 3rd-gen 270T Engine

Further Mixing

The Bosch 2nd-gen high-pressure injection system adjusts the fuel spray based on the dimensions of the combustion chamber, implementing further fuel mixing.

More Stable Combustion

Multiple injections in a single cycle ensure the stability of combustion, accelerate catalytic converter ignition and reduce emissions and fuel consumption.

Better Distribution

The electronically controlled variable displacement oil pump provides better oil distribution and reduces fuel consumption by 2.5% during the NEDC cycle.

Cutting-Edge Technology

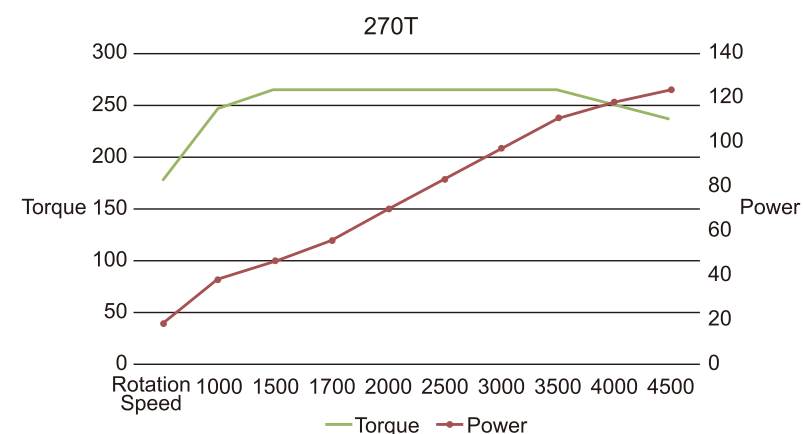

The patented GCCS combustion control technology increases the burning speed by 22% and reduces fuel consumption by 15%.

Faster Response

The BorgWarner low-inertia electronically controlled wheeled eBooster delivers a faster transient response and peak torque at ultra-low speeds.

Full Combustion

The DCVVT mechanism allows for more complete combustion, effectively increasing the moderate and low-speed torque and the high-speed power.

Max Power: 124/5000 (kW/rpm)
Max Torque: 265/1700-4000(Nm/rpm)

7L per 100 Km
High fuel efficiency

Powerful Abilities

Invincible power results from battle-tested technique. Constant refinement and tempering generates explosive performance.

Latest Aisin 6-Speed Automatic Manual Transmission

- Quick shifting response, excellent fuel efficiency and worry-free driving experience.
- Low fuel consumption and fast shifting
- Self-learning and adaptive intelligent control
- New functions "Neutral Control" and "Start - Stop"

Conqueror Chassis

Calm and Confident in All Situations

Built to stay in control

Hero Product Chassis, finely calibrated by Global Master Craftsmen

Four Superior Technologies Give You Full Control

The innovative brake and suspension systems provide excellent and reliable braking performance.

The brand-new hero product chassis greatly improves the roll performance on curves and the pitch performance when braking.

The auxiliary rear suspension enhances lateral rigidity and provides outstanding stability.

Made from high-performance materials through energy-efficient processes, the steering knuckle and anti-roll bar deliver extremely fast steering response.

International-Standard High Quality

Fine-tuned by global experts

Continental CSC5 silent tires for outstanding maneuverability and stability

TRW 3rd-gen electric power steering (EPS) system

ITT sports car class brake pads

Part supplying by 10 prestigious international suppliers

**Three highly adaptive driving modes:
standard, sport and comfort**

Revolutionized Dexterity

Fast response, high precision, excellent stability. The vehicle's excellent drivability tackles all roads, whether straight or curved.

34.77m Ultra-short braking distance comparable to a sports vehicle

2.58° Roll angle

0.96° Brake dive angle

66km/h Double lane change max passing speed

0.088s Rapid steering response time

74km/h Anti-rollover max speed

Excellent Stability and Comfort

With a hydraulic brushing design, the front-suspension lower arm can effectively suppress the shock and vibration transmitted by the road surface, implementing shock-free driving experience.

The high-clearance rear trailing arm is designed to absorb shock and ensure a smoother ride.

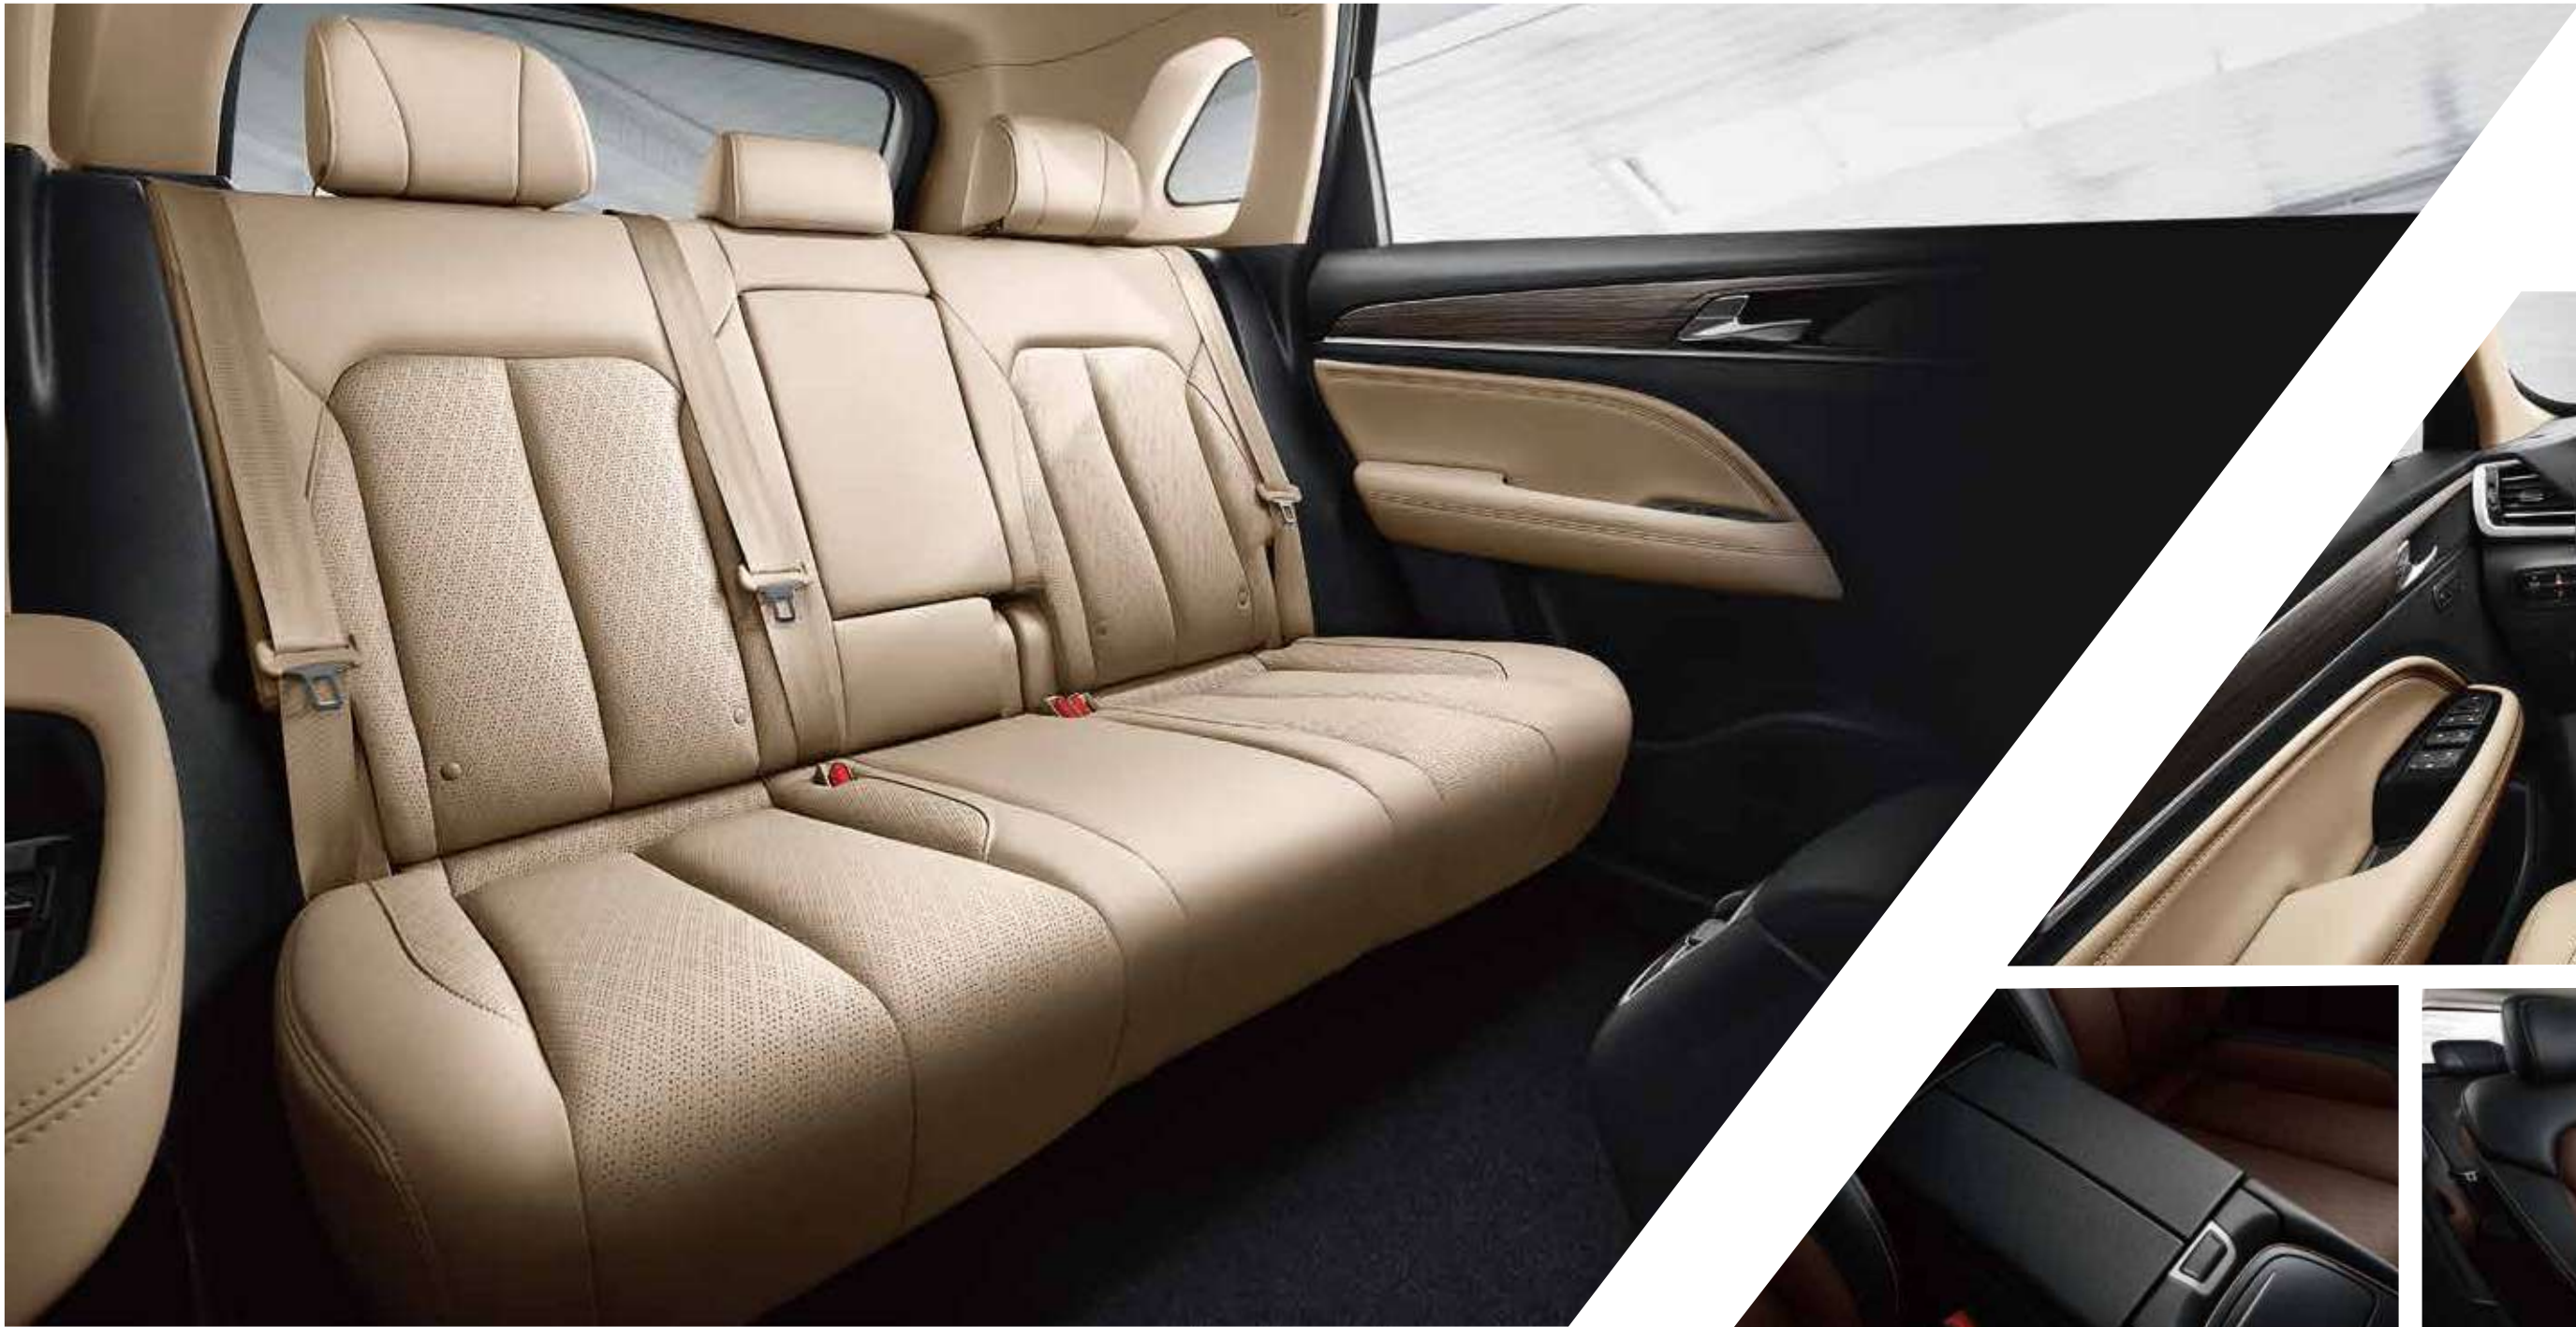

**McPherson independent front suspension
and multi-link independent rear suspension**

A wide-angle photograph of a car's interior, showing the front and rear seats. The seats are upholstered in black leather with tan-colored horizontal stitching. The dashboard and center console are black with tan accents. A large infotainment screen is visible in the center. The car is parked, and a city skyline with a bridge is visible through the windows.

Expansive Cabin

Enjoyable driving experience

Ultra-long 2710mm wheelbase
Completely flat rear floor

Rear seat height of 1019mm and backseat legroom of 985mm

Minimalist but Elegant Cabin, More Space for More Possibilities

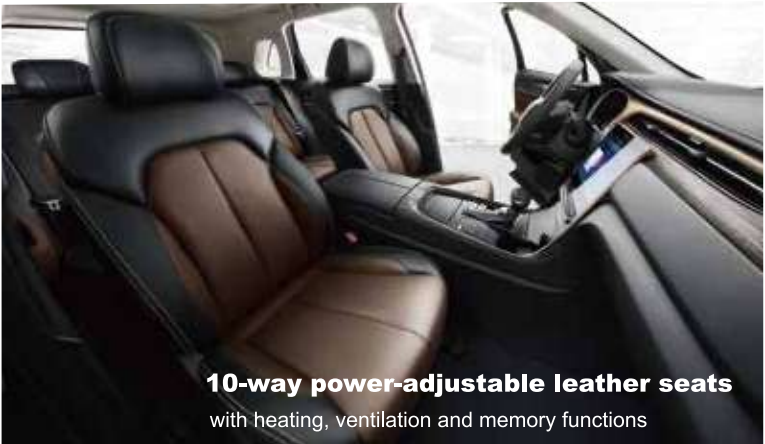

The minimalist design combines practicality and beauty. By removing complexities and constraints, the vehicle maximizes its space, creating a spacious interior that is pleasing to sense and mind.

Enjoy a quiet cabin with a low NVH of 36.9dB during idling.
Designed for elegance and comfort

Split armrest design

10-way power-adjustable leather seats
with heating, ventilation and memory functions

Oversized trunk space and multifunctional
seat arrangements

10.1-inch central control HD Touchscreen

Start a whole new life in a high-tech space

Guided by human-centered design concept, meticulously focusing on every detail, remarkable elegance with intelligence.

Easy Open smart power trunk hatch

Wireless mobile charging

12.3-inch full-LCD dashboard

Super-size 0.42m² panoramic sunroof

Refined and Natural Cabin Environment

While a breath of fresh air becomes a luxury in your urban daily life, the anion technology is integrated to create a healthy and natural space for you. Away from the impurities outside the vehicle, each breath you take is fresh and pure.

Remote-activation automatic air control system could generate 3 million anions

The advanced air quality management system integrates a humidity sensor, PM2.5 sensor, PM2.5 filter and anion generator to produce fresh air. You can monitor the in-car air quality with your mobile phone and start the air purification system in advance.

Denso Dual-Zone Automatic Climate Control

Working with the prestigious climate control system provider Denso, we developed an innovative dual-zone climate control system, which can meet the cooling and heating needs of driver and passengers in different zones in the vehicle.

C-ECAP Gold-Medal Quality Interior

The in-car air quality is improved with the imported and environmentally friendly TPO leather, which meets the EU's chlorine requirements.

Continuously Upgraded Smart Technology AI-Empowered Travel

GAC works with Tencent to develop the next-generation AI vehicle travel. By incorporating Tencent Intelligent Car Link, Smart Remote Assistant, Virtual Pilot and Voice-Activated Copilot technologies, we create a brand-new travel experience. The upgraded 4G network provides a smoother and more convenient Internet connection

TENCENT AI IN CAR

SMART REMOTE ASSISTANT

VIRTUAL PILOT

VOICE-ACTIVATED COPILOT

An orange SUV is parked on a stone terrace with a crenelated wall. In the background, there are mountains under a cloudy sky. The car has a 'GS5' badge on the front. The text 'Intelligent Technology for Safety' is overlaid on the right side of the image.

**Intelligent Technology
for Safety**

Protect Your Loved Ones

Comprehensive Safety Design for Full Protection

Enhanced protection and safety. Your safety always stays on our mind.

Developed in Accordance with the 2018 C-NCAP Super Five Star Standard

2nd-gen GAC impact absorption technology

95% of the cabin is reinforced with high-strength steel

Full application of five pedestrian protection technologies

Built to Protect

A strong vehicle gives you strong protection.
The safety of your loved ones is all that matters.

AutoHold and EPB standard is available on all models.

Advanced rear seatbelts and alarms

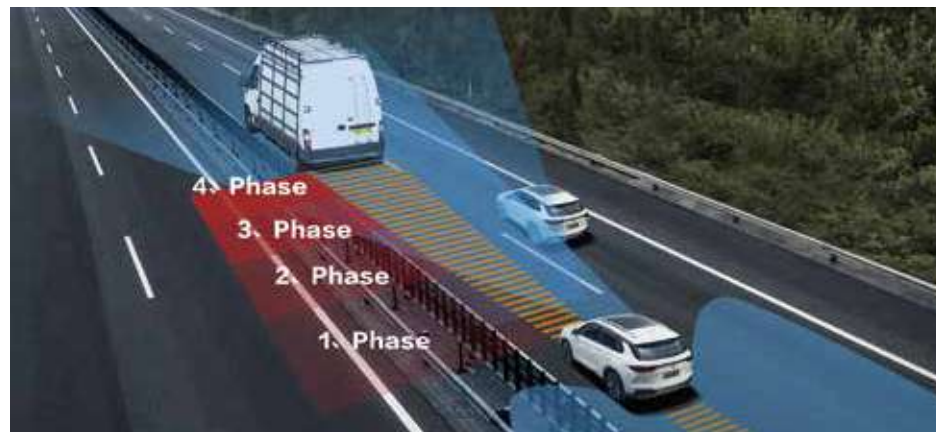

Lane Departure Warning (LDW)

Both visual and audio warning will be activated when the vehicle is about to cross over lanes while the turn signal is off.

Lane Keep Assist (LKA)

Steering wheel auto-correction will be activated when the vehicle is about to cross over lanes while the turn signal is off.

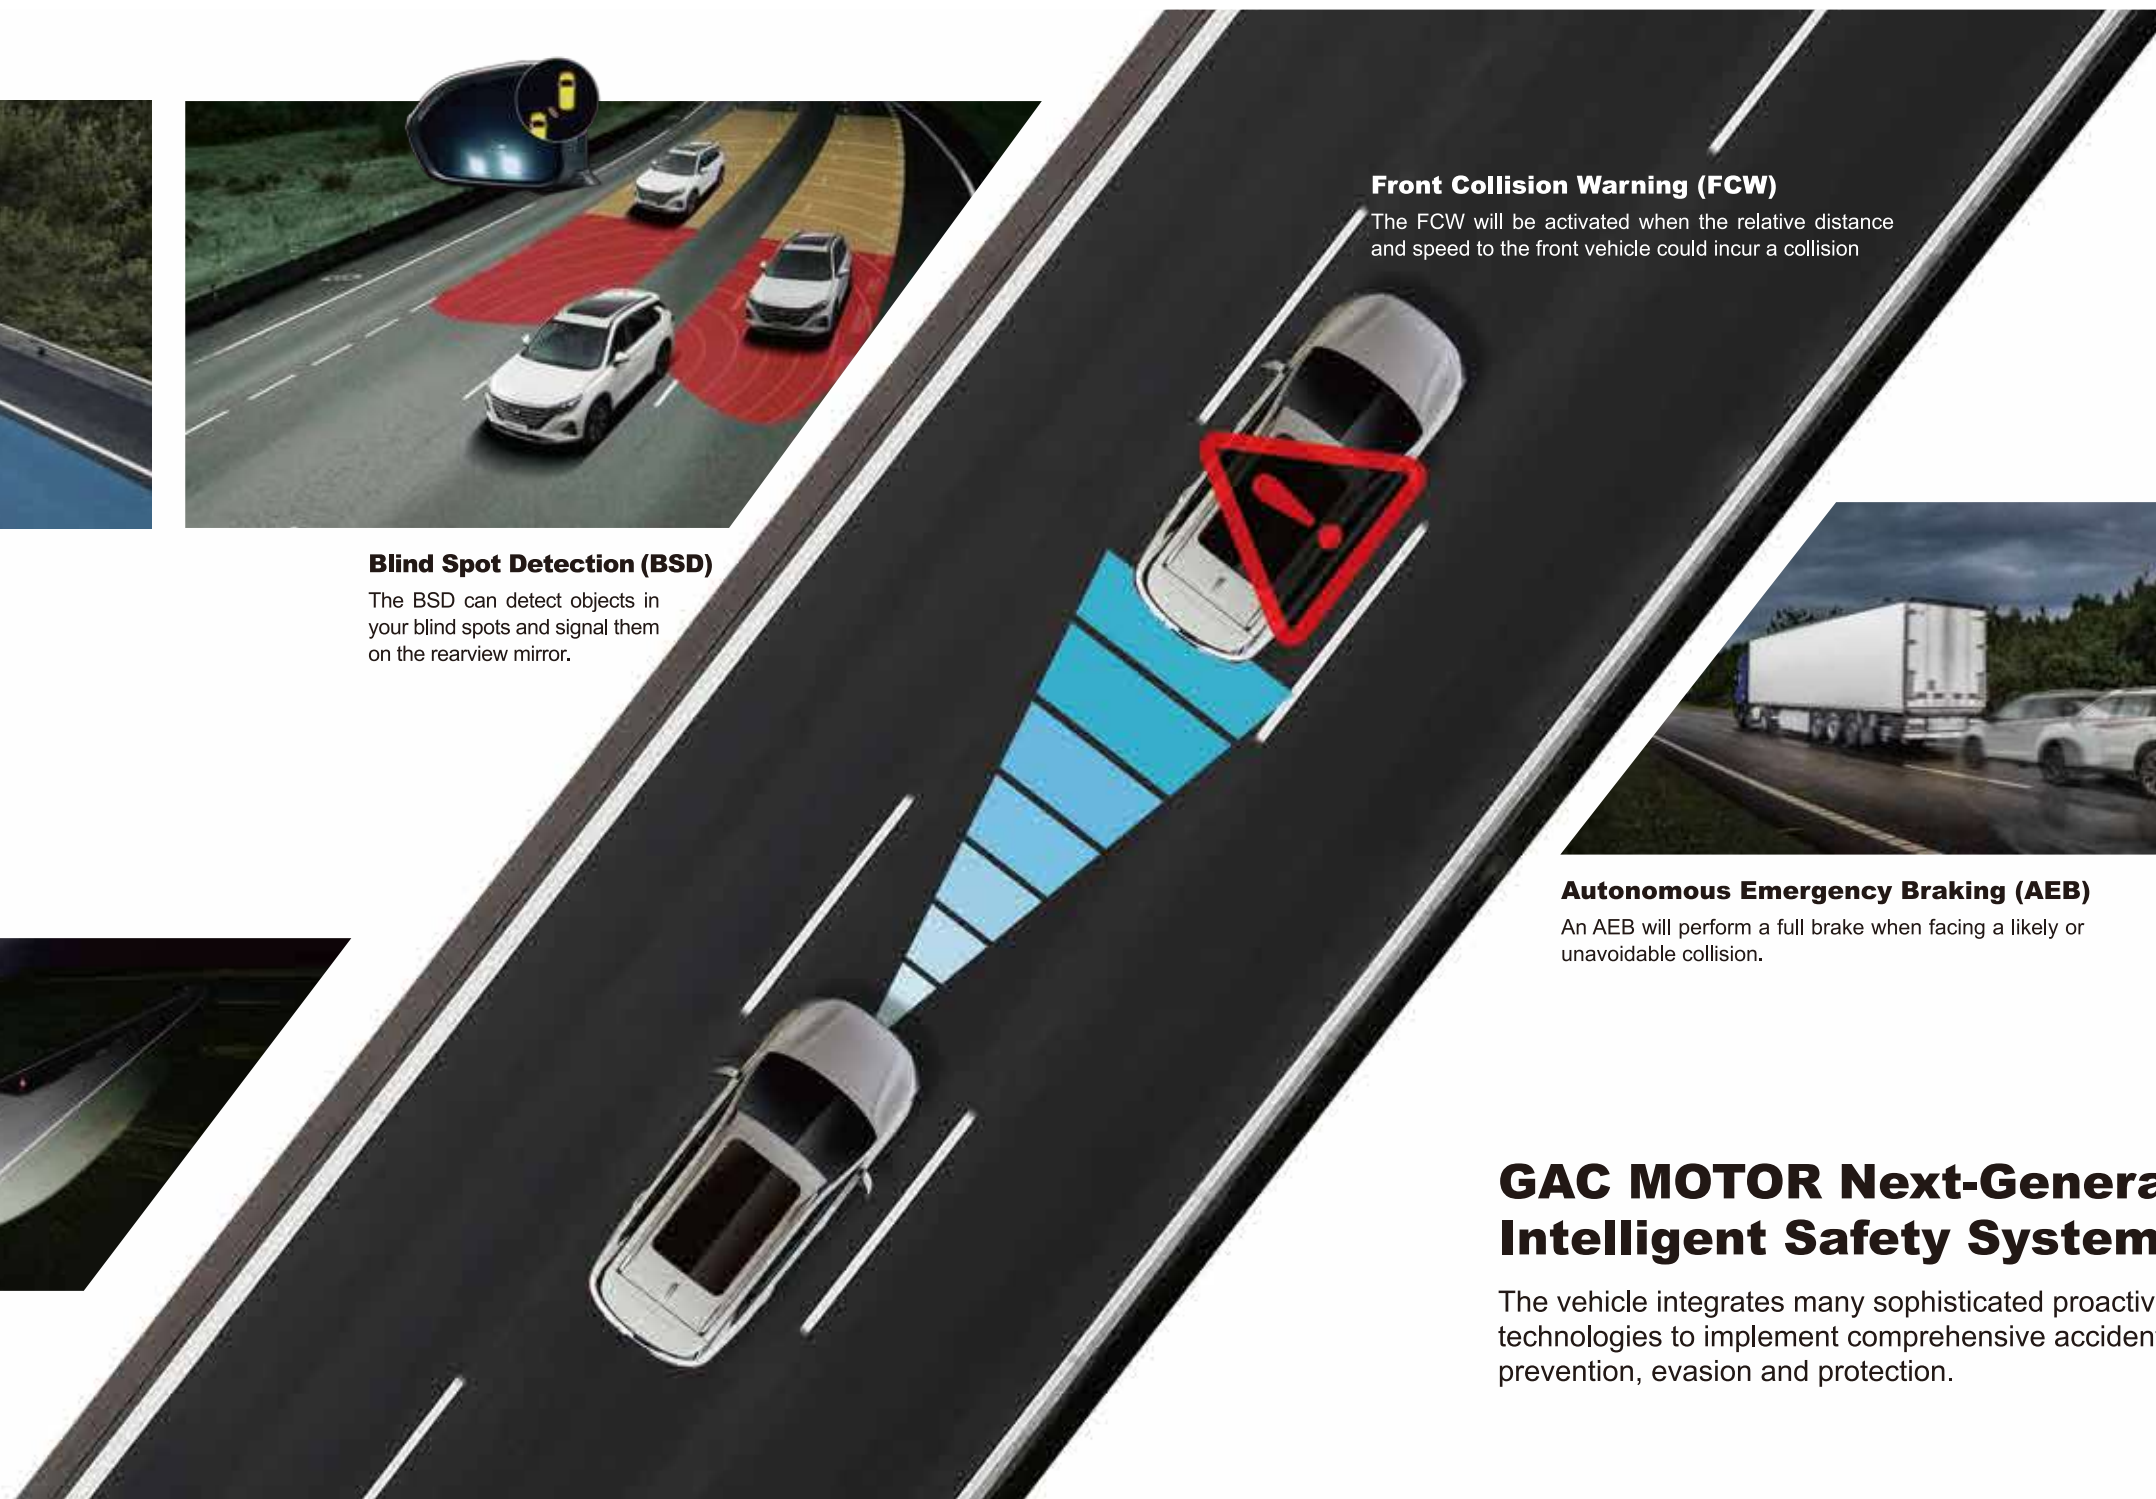

Autonomous Cruise Control (ACC)

Select a desired speed and set a safe distance to the front vehicle from four possible values.

Blind Spot Detection (BSD)

The BSD can detect objects in your blind spots and signal them on the rearview mirror.

Front Collision Warning (FCW)

The FCW will be activated when the relative distance and speed to the front vehicle could incur a collision

Autonomous Emergency Braking (AEB)

An AEB will perform a full brake when facing a likely or unavoidable collision.

High Beam Assist (HMA)

The camera on the front windshield can automatically detect lighting and adjust headlight beams.

GAC MOTOR Next-Generation Intelligent Safety System

The vehicle integrates many sophisticated proactive safety technologies to implement comprehensive accident prevention, evasion and protection.
