

GENESIS

2018 GENESIS G80

WELCOME TO AN OWNERSHIP
EXPERIENCE THAT TRULY
PUTS YOU FIRST.

The 2018 Genesis G80

LUXURY, EVOLVED.

The luxury car is changing. Along with exceptional performance, safety, comfort and craftsmanship comes a new expectation: An ownership experience where the services you receive and the technology at your fingertips are equally inventive – whether you're inside your car, or virtually anywhere else.

That's why for 2018, the Genesis G80 continues to enhance both the car and its driver with human-focused innovations. The supremely confident control of All Wheel Drive is now available on all three G80 models: The V8 5.0 Ultimate, the V6 3.8 and the new twin-turbocharged 3.3T Sport. A new generation 8-speed transmission uses SHIFTRONIC® paddle shifters and Shift-by-Wire¹ to optimize gear shifts – and adrenaline rushes.

And because Genesis is focused on your relationship with your G80 outside the car as well, you'll also enjoy a more personal, more complete take on luxury. A few examples: A stress-free purchase process, 3-year complimentary scheduled maintenance and valet services,² and an industry-best warranty with enhanced roadside assistance and concierge services.

This is just the beginning. Welcome to the evolution of the luxury car.

POWER.
TRACTION.
PRECISION.

ALL STIRRED TOGETHER
TO STIR YOUR SOUL.

Take aim at the world's finest performance sedans, and there's no way you can fake it 'til you make it. You've got to start where they do, with a platform based on rear wheel drive. You've got to offer serious horsepower, like the G80's 420-hp, 5.0L GDI V8 or 365-hp, 3.3L GDI V6 twin-turbo engine.³ You've got to hone the multi-link front and rear suspensions for exceptional stability, ride quality and driving dynamics. And you've got to use tracks like Germany's Nürburgring as your ultimate proving grounds.

For 2018, all Genesis G80 models are available with HTRAC, our advanced All Wheel Drive technology that's designed to help improve grip on roads wet or dry, snowy or slushy.

This innovative dual-mode system preserves the G80's inherent rear-wheel-drive bias in normal traction conditions, while seamlessly redistributing torque to the wheels with the best grip whenever it senses a loss of traction.

Then, there's Genesis Intelligent Drive Mode, which lets you choose from four different ride and handling settings (Normal, Sport, Eco or Snow) based on what you desire or weather conditions demand. The 2018 G80 even has a feature called Emergency Steer Assist Mode that automatically optimizes stability control in sudden evasive maneuvers. Feeling a rush of adrenaline just reading about it? Wait until you take to the street in your new G80.

THIS IS HOW WE CHANNEL OUR AGGRESSION:

For 2018, the Genesis G80 now offers the choice of a twin-turbocharged 3.3L V6 engine. It's the car our engineers were clamoring to build – one that pours 365 horsepower and 376 lb-ft of torque onto the pavement.³

And it's not merely the engine that's tuned for power. Our new Sport model features a wide range of dynamic enhancements to the G80's style and substance.

There's a more aggressive look all around, with a new cross-hatch grille flanked by honeycomb air intakes in front and quad exhaust tips around back. Dark chrome- and copper-colored accents

and exclusive 19" wheels add even more visual distinctions between the new 2018 Sport and its G80 stablemates.

To handle its enhanced performance, the new G80 Sport also gets a sporty suspension setup – retuned and fitted with continuously adjusting shocks and larger ventilated disc brakes at the rear. Even the Shift-by-Wire 8-speed automatic transmission was more aggressively calibrated to launch you from standstill to cruising speed with an unmistakable sense of urgency.

That's being very respectful of your time, don't you agree?

THE NEW TWIN-TURBO GENESIS G80 SPORT.

YOUR SAFETY SHOULD NEVER BE 'OPTIONAL'.

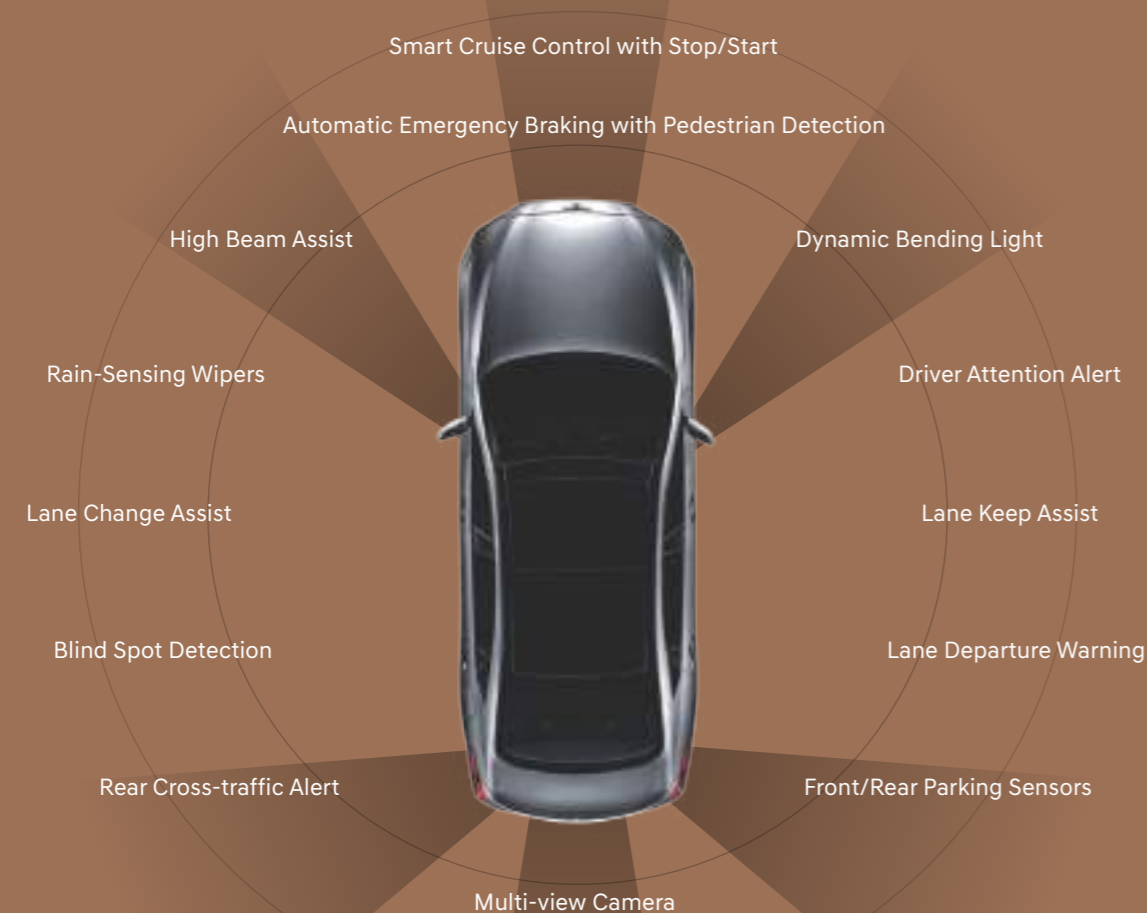

The 2018 Genesis G80 comes standard with a suite of safety features so extensive, it's left both the automotive press and the safety rating agencies impressed. In fact, the 2017 G80 earned both IIHS Top Safety Pick+ and NHTSA 5-Star Overall Safety ratings.⁴

To surround you with an unwavering sense of security, the G80 features Genesis Smart Sense, a suite of radar- and camera-based technologies that warn you of potential hazards from the front, side and rear. Its Automatic Emergency Braking now includes Pedestrian Detection,⁵ and a new function called Driver Attention Alert analyzes your steering inputs and position in traffic lanes to warn you if patterns typically associated with driver fatigue are detected.

For optimal visibility on nighttime turns and winding roads, the 2018 G80 features full LED headlights with Dynamic Bending Light, which turns your headlight beams in sync with the steering wheel for better visibility when cornering.⁶ The G80 is well-equipped to instill confidence when the weather conspires against you as well. Both Electronic Stability Control and Traction Control are standard, helping you carve sure-footed paths in the snow.⁷ Available HTRAC All Wheel Drive adds even more road-holding confidence at all four corners.

To aid with visibility in the cold and wet, the G80 comes standard with heated side mirrors and rain-sensing wipers that automatically vary wiper speeds to keep your windshield clear. The way we see it, weather can be uncertain – but your safety should never be.

IT'S NOT TECHNOLOGY FOR THE SAKE OF TECHNOLOGY.

IT'S TECHNOLOGY FOR THE SAKE OF YOU.

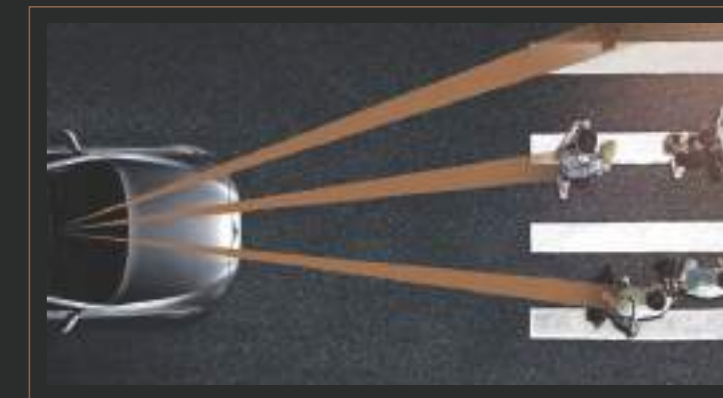

AT-A-GLANCE INFORMATION

The Genesis G80 helps its driver process information quickly with a color Heads-up Display that projects vehicle speed, speed limits, navigation turns and warning alerts (for the Smart Cruise Control, Blind Spot Detection, Lane Departure Warning and Forward Collision Warning systems) onto your windshield.⁵ The navigation system's touchscreen also offers at-a-glance ease with a split-screen display for viewing both guidance and audio features simultaneously.

BRAKING THAT SEES THE FUTURE

G80's Automatic Emergency Braking system has been enhanced for 2018. It not only helps detect the presence of vehicles ahead of you – it can now help detect pedestrian hazards as well. Using front radar and a front camera to detect if a crash is imminent, it automatically applies braking to help mitigate the effects of a collision. Or better yet, help avoid one altogether.⁵

EXTRA SETS OF EYES

For 2018, the G80 is equipped with a Multi-view Camera that displays the perimeter of your car from multiple camera angles.⁶ To help you back out of parking spaces or driveways, we've included front and rear parking sensors, along with a rearview camera complete with guidelines that track your steering path.⁶ Rear Cross-traffic Alert, which helps warn of vehicles approaching from either side when reverse gear is selected, is also onboard.⁸

THIS IS HOW WE TURN UP THE VOLUME.

The spaciousness of a luxury car is measured by volume. And no other luxury sedan in its competitive set has more passenger room, cargo space or overall interior volume than the Genesis G80.⁹ More important is the way the interior makes you feel when you look around the cabin. Ultra-premium soft-touch leather, matte-finish premium wood and aluminum trim grace its surfaces.¹

Settle into the driver's seat, and the feeling of substance is unmistakable. High-density pads used in the G80's seat construction ensure firm yet comfortable support for your sitting posture. Ensuring long trips end with you and your passengers feeling invigorated, not fatigued. The G80's heated front seats are available with cooling ventilation (standard on 5.0 Ultimate and Sport). And the 16-way power driver seat

includes a seat cushion extender, a 4-way power lumbar feature and power side bolsters that inflate individual air cells for precise support.⁶

The world's first dual-mode ventilation control system designed with a CO₂ sensor and cabin air filter cleanses the air.⁶ A panoramic glass sunroof lets passengers enjoy natural light, while power rear window and manual side window sunshades help block unwanted sunlight from entering the rear compartment.⁶

And then, there's another way G80 turns up the volume: A 17-speaker Lexicon® premium audio system with Quantum Logic® Surround Sound and Clari-Fi™ Music Restoration Technology that rebuilds the details lost in compressed audio files, restoring the listening experience to its original clarity and richness.⁶

INSIDE THE NEW G80 SPORT, PERFORMANCE TAKES CENTER STAGE.

The moment you open the door of the G80 Sport, it's abundantly clear you're about to enter a luxury sedan geared for performance. The indications are everywhere your eyes track: Sport seats with contrast stitching on both the cushion and side bolsters. Copper-accented perforations in the seating surfaces. Carbon fiber trim on the dash and doors.

Now look up – that's a black microfiber suede headliner. All of which serves as visual confirmation of what you'll feel the moment you wrap your fingers around the sport steering wheel with contrast stitching. And delight in the rush of sound as you engage with the alloy sport pedals beneath your right foot – and the 365-horsepower twin-turbo engine beneath the hood.

A HIGHER FORM OF INTELLIGENCE.

From the moment you approach your Genesis G80, it presents you with intelligent solutions. A Proximity Key heralds your presence and activates approach lights. Walking up to your car with your hands full? The G80's smart trunk opens automatically for easy access to cargo capacity that's one of the largest in its class.⁹ It works by detecting the stylish key fob in your pocket or purse. Simply wait by the trunk for a few seconds, and it opens with no need to wave one foot awkwardly under the rear bumper like some competing systems require.

Slip behind the wheel of the G80 3.8, and you're greeted by an 8" touchscreen display with split-screen functionality for viewing audio information and navigation maps (complete with junction view lane guidance). Android Auto™ and Apple CarPlay™ – standard on every G80 model – let you make hands-free calls or access your smartphone's music, maps and messages with simple voice commands. The full suite of SiriusXM Traffic & Travel Link® services (traffic, weather, sports, stocks, movie listings, fuel price locator and more) are also complimentary for your first 3 years.¹⁰

A large 9.2" 720p HD touchscreen display¹ is your command center for a premium navigation and multimedia system featuring Lexicon Quantum Logic Surround Sound with Clari-Fi™ Music Restoration Technology and speed-sensing volume control. The audio system's 17 high-efficiency speakers are tuned to the G80's unique acoustics for an exceptional listening experience at every seating position.

TIME IS THE NEW LUXURY.

THE GENESIS G80 MAKES EVERY SECOND COUNT.

YOUR PHONE, ON FOUR WHEELS

Apple CarPlay™ (pictured here) offers a smarter, easier way to bring your digital life along for the ride. You can access your iPhone's Apple Music and Maps, make phone calls and send messages through the G80's touchscreen or with voice commands through Siri. The G80 also supports Android Auto,™ which lets you use compatible Android™ phones with touchscreen or Talk to Google™ commands to access Google Maps,™ listen to Google Play™ music, and more.¹¹

STAY CHARGED

All of that seamless integration between your smartphone and the G80's touchscreen display means more demand on your smartphone's battery life. No worries: The Genesis G80 features an available wireless charging pad in the front console tray. Simply set your compatible smartphone on the pad, and it charges automatically. Handheld devices can also be charged using two USB ports located in either the front console tray or center console storage. Feeling juiced?

A QUANTUM LEAP IN AUDIO

For 2018, G80 Ultimate and Sport models come equipped with a Lexicon Quantum Logic Surround Sound audio system.⁶ It features 17 speakers and Clari-Fi Music Restoration Technology to create rich, vibrant music reproduction. So whatever you're enjoying – from HD Radio™ or Bluetooth® streaming playlists to SiriusXM® Satellite Radio's wide range of music, talk, news, sports and entertainment channels – you'll hear it all with remarkable clarity.

CONTROL YOUR G80 USING YOUR SMARTPHONE? THERE'S AN APP FOR THAT.

As a G80 owner, you'll have full access to Genesis Connected Services (your first 3 years are complimentary).¹² A suite of emergency, guidance and remote services are at your fingertips, acting as your own personal guardian and concierge.

The Genesis Intelligent Assistant® app (available as a free download from Google Play™ or the Apple App Store) combines our Genesis Connected Services features with data from your G80, your smartphone or smartwatch, and the internet to give you the information you need – sometimes without you even having to ask.¹³ You can receive estimated departure times to avoid being late for appointments. Get weather and traffic alerts. It can even remind you to remotely start your G80 and set the cabin temperature before leaving the office on a hot or cold day.

Using Genesis Remote Services, you can remotely lock or unlock the car doors and start your engine and climate controls from almost anywhere.¹⁴ The 2018 G80 now integrates with Amazon Alexa voice services as well, so you can ask Alexa to start, unlock or lock, and adjust the cabin temperature in your G80 without lifting a finger.

Love to explore new cities? Genesis Guidance Services include Destination Search powered by Google.™ At the press of a button, address and contact details appear on your navigation screen. And destination searches you perform via the Genesis Intelligent Assistant app can be sent directly to the navigation system in your car.

Welcome to the intersection of convenience and cool.

FOOTNOTES

¹ Available on G80 3.8, standard on G80 Sport and 5.0 Ultimate. ² All of the normal scheduled maintenance included in the G80 Owner's Manual is covered for 3 years or 36,000 miles. ³ Horsepower rating with premium fuel. ⁴ 2017 IIHS "Top Safety Pick+" based on good ratings in the moderate overlap front, small overlap front, side, roof strength and head restraint tests, no less than an advanced rating for front crash prevention, and no less than an acceptable rating for front crash prevention, and no less than an acceptable headlight rating. For details please visit www.iihs.org. Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program. Visit safercar.gov for details. ⁵ Automatic Emergency Braking (AEB) with Pedestrian Detection detects pedestrians, but not in all conditions. AEB is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. Automatic Emergency Braking may not stop the vehicle completely and will not avoid all collisions. ⁶ Standard on G80 5.0 Ultimate and Sport, available on G80 3.8. ⁷ Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. Refer to the Owner's Manual for details. The Traction Control System is meant to enhance conscientious driving habits and is not a substitute for safe driving practices. ⁸ Never rely exclusively on the Rear Cross-traffic Alert. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection,

range and clarity of the system. The vehicle must be in reverse gear at a speed of 6 mph or less. ⁹ Claim based on comparison of specifications listed on manufacturer and/or fuelconomy.gov websites. ¹⁰ All SiriusXM services require a subscription, sold separately by SiriusXM after a free trial subscription period. Fees and taxes apply. All fees and programming are subject to change. To cancel, please call 1-866-635-2349. Refer to our Customer Agreement for complete terms at siriusxm.com.
